

# Self-drive Tour Motor Contingent Liability

## Short term protection for Self-drive Tour Scheme

In general, Hong Kong motor insurance only covers for third party liability within Hong Kong territory; while the Mainland compulsory traffic accident liability insurance for motor vehicles covers for third party liability within Mainland China. If a Hong Kong driver encounters a traffic accident in Mainland China while driving and subsequently face a trial in the Court of Hong Kong put forward by the concerned third party, the motor insurance in the two territories do not provide coverage and the amount of claim could be in millions. Zurich now presents Self-drive Tour Motor Contingent Liability insurance plan to the applicants of Ad Hoc Quotas for Cross Boundary Private Cars (Self-drive Tour Scheme). It provides a protection to cope with the above-mentioned gap, giving you now a wonderful driving experience without hassle and worry.

### Product Coverage:

### Real Case

Many years ago, a Hong Kong driver encountered a traffic accident when he was driving from Guangdong Province to Huanggang Port, resulting in serious bodily injury to his passenger friend who was a Hong Kong pop singer. The singer claimed compensation around HKD10,000,000 against the Hong Kong driver via Hong Kong Court, and the Court held the Hong Kong driver liable. As the motor insurance in the two territories were unable to provide cover for the gap, the Hong Kong driver had to bear the compensation on his own.

**Thus, you are highly recommended to enrol in Self-drive Tour Motor Contingent Liability insurance to avoid the unpredictable amount of financial loss.**

Note: The coverage shall be extended free of charge up to 3 days if the journey is extended due to any circumstances beyond the insured's control and as permitted and recognised by the Transport Department.
